Dili, 25/02/2021

Miss Chryssa Tsouraki,
Managing Director,
IN-VR

We are very pleased to fully support and endorse the upcoming summits organised by IN-VR that will represent the Oil & Gas opportunities in the country of Timor-Leste.

ANPM would like to assure the industry that both the virtual summit in March 2021 and the physical one in Q4, are the only official events representing our energy market, and we invite you to join and support both.

The second edition of *The Energy Online Series Timor-Leste* will be a phenomenal opportunity for the international and local private sectors to get to know the Timorese Government and to better understand what does the country offer to new potential energy players.

Both events to be officially hosted by ANPM, will aim to permanently link the national authorities to all the global companies that we much welcome, besides all the current enterprises already established in the country.

We are looking forward to welcoming Oil & Gas Operators and Service Companies, Investors and other industry executives to our *The Energy Online Series Timor-Leste*, and later on to our physical summit in Dili.

Yours sincerely,

Florentino Mateus Soares Ferreira
President of ANPM
